EDUCATION

Jawaharlal Nehru Technological University of Hyderabad

09 2023 – 09 2028

B. Tech + M. Tech (IDP) in ECE - CGPA - 8.30

Hyderabad, India

EXPERIENCE

Social MM 🔗

01 2026 – 03 2026

Software Developer Intern

Remote

- Contributed to development of Zenzhub LMS platform with scalable features.
- Improved platform usability, user workflows, and component architecture for course delivery systems.

Zidio Development 🔗

08 2025 – 12 2025

Web Development Intern

Remote

- Built MERN-based Excel Analytics Platform with XLS/XLSX parsing, AI insights, and interactive 2D/3D visualizations.
- Implemented JWT auth, role-based dashboards, secure upload pipelines, and analytics history management.
- Integrated Gemini AI, Chart.js, Three.js, Multer, and MongoDB for scalable analytics workflows.

PROJECTS

Delay Prediction in Metro Systems 🔗 | [Python](#), [Pandas](#), [XGBoost](#), [LSTM](#)

03 2026

- Built ML-based metro delay prediction system using GTFS datasets and engineered delay simulation.
- Developed feature pipelines for congestion, peak-hour, sequential, and propagation-based delay prediction.
- Built interactive Streamlit dashboard for delay prediction, congestion analysis, and operational insights.

Agentic AI Misinformation Detection System 🔗 | [FastAPI](#), [LLMs](#), [NLP](#)

01 2026

- Developed multi-agent AI system to detect, analyze, and explain misinformation patterns in real time.
- Built browser-extension content extraction with AI heuristics, emotion analysis, and credibility scoring.
- Integrated fact-checking APIs, proactive threat scanning, and real-time alert pipelines.

CareerLyze - AI Career Coach SaaS 🔗 | [NextJS](#), [NeonDB](#), [Prisma](#), [Gemini AI](#)

07 2025

- Built AI-powered resume builder, interview engine, and career analytics platform.
- Implemented real-time trend analytics dashboards with market-demand insights.
- Architected modular APIs with .js App Router + Inngest

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, C

Frontend: React.js, Next.js, Chart.js, Tailwind CSS, ShadcnUI

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT Auth, Gemini AI

ML & Data: Pandas, NumPy, Scikit-learn, XGBoost, LSTM, LLMs, NLP

Databases: MongoDB, PostgreSQL, Firebase, Prisma, NeonDB

Tools & DevOps: Git, GitHub, VSCode, Docker, AWS, Azure, Vercel, Render

EXTRACURRICULAR

- Contributed to open-source projects in GsSOC 2025 & 2026.
- Worked as Student Research Associate with Stanley College of Engineering, Hyderabad. Contributed to the metro ML research project and IEEE paper development focused on smart transit analytics.

CERTIFICATIONS

- Web Development Bootcamp - Udemy
- Cloud & DevOps BootCamp - Exlearn Technologies
